

September 11, 2020

Dear Families,

The school bus operators for the North East Tri Board Student Transportation are actively trying to problem solve the student

of the driver shortage by making alternate pooling or active transportation (walking, cycling, etc.) be made, please advise your child's school. This would help to reduce the number of students

notifications in order to receive cancellation and delays, as these are happening on a daily basis.

At this time, we can confirm the following route is impacted:

F-321 (delayed morning pick-up/early afternoon dismissal)
